

Tuition Savings for the Building Operator Certification (BOC) Program

74 hours of class and project work | 1 or 2 day courses | 8 a.m. until 4 p.m.

MICHIGAN COURSES

Upcoming training at **Mott Community College in Flint beginning June 14** and again at **Northern Michigan University beginning August 10**. This is the **first time** the training will be offered in Flint and in the Upper Peninsula.

TUITION DISCOUNT

“To jumpstart energy savings at public buildings, the Michigan Energy Office (MEO) is offering a \$400 discount off the tuition for the training program. Adding to the army of trained public building operators in Michigan is a worthwhile investment that will reap significant savings for years to come. Facilities with BOC graduates are proven to save energy, have lower energy bills and offer improved comfort for occupants. Public building operators who work in Michigan are encouraged to apply for tuition assistance.” -Valerie Brader, executive director of the Michigan Agency for Energy (MAE).

TRAINING

BOC training includes nearly 74 hours of classroom and project work (7.4 CEUs) in building systems operation and maintenance. Each course in the series is completed in a one-day training session offered every other week, except BOC 1001 Energy Efficient Operation of Building HVAC Systems, which is a two-day course. Unless otherwise noted, training begins at 8 a.m. and ends by 4 p.m. **Space is limited. Early registration is encouraged.**
